EXPERIENCE

Thoughtful – Engineering Flex Projects

Restaurant Reservations App

[Project Link](#) | [Deployed Link](#)

- Developed a B2B app to manage backend restaurant reservations including capacity management and table reservations.
- Constructed the app to display the available/reserved tables on the dashboard by date, includes a sidebar with a “Search”, “New Reservation” and “New Table” page for easy navigation to all information and functionalities of the app.
- Built with HTML, CSS, JavaScript, React.js, Node.js, Express, Knex, PostgreSQL, and Vercel.

Personal Project

Cryptocurrency Coin Price Checker App

[Project Link](#) | [Deployed Link](#)

- Developed an app that tracks and searches live tickers, prices, and behaviors of all cryptocurrencies.
- Constructed the app to display all cryptocurrencies on the homepage with relative information and includes a refresh button and search bar.
- Built with HTML, CSS, JavaScript, and React.js.

Software Engineer Internship

2022 - Present

NuRevealSkincare | Venice, CA

- Upgrade the company's consumer-facing website, adding widgets, and handling data & analytics to improve user experience, increasing website traffic by 30% and the conversion rate by 15% since joining the company.
- Research up-and-coming solutions to implement while deep diving into user problems and finding efficient solutions.
- Review customer feedback and translate feedback into insights presented during weekly meetings.
- Work in an agile environment and collaborate with multiple teams ranging from operations, marketing, design, and 3PL.
- Optimize Amazon Seller's account to improve conversion rates on Amazon.com increasing sales by 50%.
- Configure integrations for multiple marketing affiliate networks for increased influencer relations.

Operations Manager & Stock Analyst

2021 - 2022

Ernie Goldberger & Co. | Los Angeles, CA

- Responsible for accounting and financial forecasting.
- Created end-of-month reports of all company business and dealings, found many discrepancies that saved the company over \$20k.
- Managed multiple bank accounts approximately accumulating to \$25M worth of stocks for the owner of the company.

Financial Analyst

2016 - 2020

Hertz Investment Group | Woodland Hills, CA

- Underwriter for acquisitions, analysis done using Argus Enterprise, found 3 approved investment deals for the Hertz Group's Portfolio.
- Created multiple Excel programs to streamline everyday operations in every office nationally, such as new accounting programs; parking structure database systems, and revenue vs. op-ex projection reporting.
- Upkept many aspects of the Hertz Group Portfolio, consisting of over 70 high-rise buildings totaling around 20M square feet, with the implementation of ongoing capital adjustments, loan consolidations, budget allocations, and changes to their leasing database.

ABOUT ME

[in LinkedIn](#) | [Portfolio](#) | [GitHub](#)

I am a software developer experienced in React.js, Express, Vercel, Heroku, algorithms, and data structures. I have six years of experience in finance which allowed me to develop my detail-oriented analysis, program building, and teamwork skills. I also have a strong background/interest in coding and design.
